

Brainstorming

Introduction:

The brainstorming session focused on identifying common problems faced by students and exploring AI-based solutions that could improve the learning experience.

Problems Identified

- Difficulty understanding new topics.
- Searching for reliable study material.
- Lack of interactive learning tools.
- No personalized guidance.
- Time-consuming quiz preparation.
- Long educational documents.

Ideas Considered

Idea	Description
AI Chatbot	Answer educational questions
Quiz Generator	Generate quizzes automatically
PDF Summarizer	Summarize uploaded documents
Voice Assistant	Voice-based interaction
Learning Path	Personalized study recommendations

Final Idea Selected

EduGenie was selected because it combines multiple AI-powered educational features into a single platform.

Benefits

- Saves students' time.
- Improves learning efficiency.
- Encourages self-learning.
- Provides instant AI assistance.
